

Telematics Solution suitable for Gritter Vehicles

Suitable for all types of Gritting Vehicles irrespective of make or age.

Available as an aftermarket fit for all types of Gritting Vehicles irrespective of make or age and giving vital details of all journeys, sections gritted and salt volume laid.

PLANT I GRITTER SYSTEM DETAILS

Based on the Matrix VMI system and MDT850, the Plant I Gritter system will give:

- A position update with ignition on every 1 minute giving driving speed and position on a map and in a report.
- A mapped trail of each journey along with a street by street report will be available.
- Highlighted separately are the sections of the journeys with gritting on.
- Estimate the amount of salt laid on each journey

Suitable for all types of Gritting Vehicles irrespective of make or age.

Available as an aftermarket fit for all types of Gritting Vehicles irrespective of make or age and giving vital details of all journeys, sections gritted and salt volume laid.

Standard reports:

- Employee timesheet for the day/week/month showing time started/finished/driving and allowing the company to ensure working time directive compliance.
- Idling time by employee.
- Driving time by employee.
- Over speed by employee.
- Time on site by employee.
