[Parcel GO]

Load Scheduling – Designed To Work The Way You Do

**Load Scheduling
suitable for all types
of consignments.**

**Meet critical delivery
deadlines and improve
coverage with the
Matrix?Plant i Parcel GO
Load scheduling solution.**

[Parcel GO]

Also...P.D.A.GO In-cab Solution

PDA Go provides a fast and informative in cab solution for any haulier. Featuring real time GPS vehicle tracking improving fleet productivity, accountability and profitability.

The P.D.A.GO allows you to monitor your fleet at all times.

By incorporating working time management, you have the ability to assess exactly how many hours your driver has spent on the road.

P.D.A.GO includes electronic signature capture, allowing a driver to obtain an electronic POD on delivery.

This is then sent instantly to the Haulier minimising paperwork and preventing the loss of essential documents.

The P.D.A.GO Solution also provides the Haulier with an interactive messaging system between the traffic office and their fleet.
